

ATLAS

THE ECONOMICAL, VERSATILE HIGH-SPEED INKJET

**HIGH-VOLUME PRINT
PERSONALIZATION
MADE EASY!**

FEATURES

- Low ink cost, Monet inks for general use, Cezanne for glossier stocks & quick dry applications
- Fast drying inks onto porous and coated/glossy substrates
- Reliable high-speed printing: 40,000+ pph
- Print heads available in 1", 2" and 3" of vertical print
- High-resolution text, barcodes, and graphics
- Simple, low maintenance, user-friendly system
- Modular design: combine with other print technologies on same operating platform
- Mount up to 8 print heads on one system
- Rotated print, graphics, and barcodes for inline or perpendicular print orientation

APPLICATIONS

- High-volume personalization – letters, mailings
- Envelopes, inserts, magazines, flats, books, etc
- Sheet-fed or web-based applications
- Transactional forms and documents
- Coupon imaging/barcode printing
- Gaming, tickets, tags and labels
- Numbering
- Read & Print with 1:1 accurate tracking

ATLAS

PIEZO – SOLVENT-BASED INKS

**A Choice of Narrow or Wide Print Heads at
Speeds Suitable for Web and Sheet Fed Printing**

A true production unit that lets you enjoy low operating costs and high production speeds when you print high-quality addresses, barcodes, logos, graphics, marketing messages, and more for sheet and web applications.

A range of solvent based inks deliver fast, low-cost, quick dry print on a wide variety of substrates. And with the new Atlas 3250, you can achieve full-page variable data printing simply by combining multiple print heads.

ATLAS

THE ECONOMICAL, HIGH-SPEED INKJET

HIGH-VOLUME PERSONALIZATION + LOW-COST OPERATION

Whether you are expanding an existing printing or mailing installation, or building a new system from the ground up, Buskro application specialists will help you to select an easy to use, appropriate solution to meet your needs.

Conserve your resources! You can do more with the Atlas high-volume inkjet print head, and – at the same time – achieve significant savings with low operating costs. Add OCR vision recognition systems for read and print capabilities and selective control applications or interface to high-speed graphic equipment to get full production capabilities.

Buskro systems are built with a modular, open architecture that will allow you to expand your line as your business grows.

- High quality
- Easy to use
- Affordable
- Durable and dependable

All Buskro products feature heavy-duty construction from top to bottom, as well as design details that promote years of trouble-free operation.

For more information on this print technology and our complete line of mail and print solutions, visit our website or call a Buskro application specialist today!
