MAILROOM TECHNOLOGY

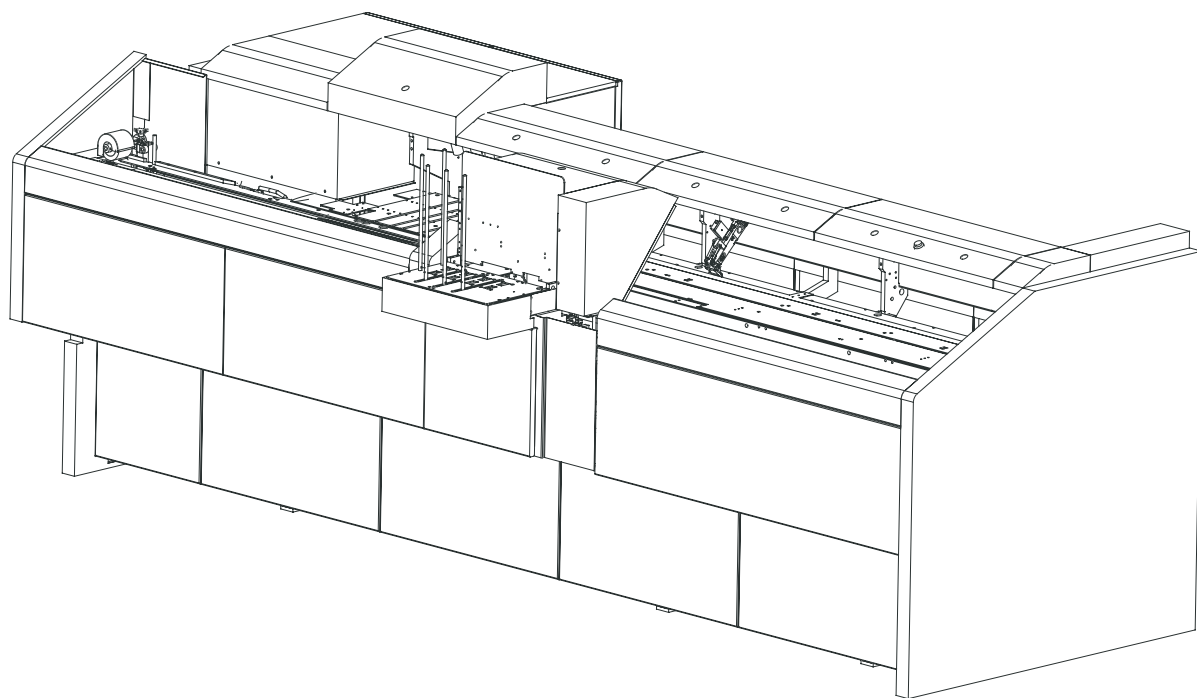

NEW FEATURES

- Servo drive for multi-feed from stations and improved high-speed endurance
- Improved HMI-system
- Diagnostic function
- Improved water system
- High capacity envelope station
- New design

The C4 Giant is a modular system, which enables a single system to process multiple applications. It can be customized to handle a specific task or easily set up for different kinds of jobs depending on customer requirements. It is available in versions ranging from handling 2 inserts to a 16-station tandem machine. The C4 Giant handles different quantities of enclosures depending on customer requirements – enabled by optical reading (BCR, OMR, ICR etc). It handles envelopes from size C6 to C4/B4.

A wide range of accessories, stand-alone and channel-modules (see separate product-sheet) are available to make this one of the most versatile inserters on the market!

C4 GIANT
