

The small bursters with a high capacity for work.

STOP WASTING TIME AND MONEY!

Don't think that...

...automatic forms processing is viable just for large printer outputs.

For **HEFTER SYSTEMFORM** customers manual forms handling is a thing of the past because **HEFTER SYSTEMFORM** has the solution to unproductive manual forms handling – the bursters M 3000 and M 3010:

Margin trimming
+ Bursting
+ Stacking

...in a single process!

In addition the appearance of your forms will be improved:

- No more torn-off edges
- Margin trimming gives clean cut edges.

These bursters operate economically even where small quantities are being processed and incorporate features normally only found on much more expensive machines.

Notwithstanding the size of your company the bursters from **HEFTER SYSTEMFORM** are ideal initial machines for

- entering the world of automatic forms handling
- or for decentralised operations, such as branch offices.

The two bursters that offer more!

The extremely feature rich M 3000 and M 3010 bursters are without doubt leaders in their class and offer among others:

- Clear and logical control panel for easy operation
- Electronic length setting
M 3000: 4"-12"
M 3010: 3"-12"
- Tractor infeed for accurate paper transport
- Individually selectable margin cutters connected to tractors; no adjustment of knives required when changing form sizes
- Automatic jam clearance
- Quick-stop button with restart from memory
- Fast, quiet and capable of processing up to 5.000 12"-forms per hour
- Jam control and automatic "paper out" control
- Mounted on casters for easy relocation
- Papertray and waste basket

The M 3010 has the following additional features:

- Automatic paper jam control of the stacker
- Sheet-by-sheet stacking especially designed for small form lengths.

Various options – for example on-line connection to the TF 2220 Automatic Folder – increase the flexibility of this range.

OVERVIEW OF TECHNICAL FEATURES

Standard Features: BURSTERS	M 3000	M 3010
Max. form width (only with margin trimming)	375 mm	375 mm
Min. / max. form length	4" / 12"	3" / 12"
Max. form set	5-part	5-part
Max. paper weight	300 g/sm	300 g/sm
Paper transport by two tractors	●	●
Combined tractor/margin trimmers with individual operation option	●	●
Margin trimming	9-25 mm	9-25 mm
Stacking	standard stacker	sheet-by-sheet stacker
Electronic length setting with standard sizes	0", 4", 6", 8", 8,5", 11", 12"	0", 3", 4", 6", 8", 8,5", 11", 12"
Quick-stop button	●	●
"Clear-jam" button	●	●
Variable speed	max. 5.000 12" forms per hour	max. 5.000 12" forms per hour
Automatic paper jam control	●	●
Jam control / conveyer stacker	-	●
Paper tray and waste basket	●	●
"Paper out" control	●	●
Voltage	230 V / 50 Hz	230 V / 50 Hz
Power	210 W	210 W
Noise level emission	69 dbA	69 dbA
Dimensions length x width x height (cm)	105 x 61 x 95	115 x 61 x 95
Weight (kg)	37	43
Colour light grey / grey	●	●
Mounted on 4 casters	●	●
CE-approved	●	●
Options:		
Prepared for on-line connection to table folder TF 2220	●	-
On-line connection to printer	●	●
Programming of additional form lengths	3 form lengths	2 form lengths
Special stacker 18"	●	-
Centre slitter	●	●
Margin slitters up to 42 mm	●	●
Predecollating station for refolding in line	●	●
Special installation for small-sized formats	-	●
Form width extension to 390 mm, only with electr. paper feed button and margin trimming	●	●
(further options on request)		

● = yes, - = no (Subject to technical changes)
