

Cutter C 66xx

The mechanical processing of continuous form sets – such as invoices, order confirmations or delivery notes – is done very quickly and economically!

Modern microprocessor technologies combined with easy handling (90 programs can be stored) and service friendly construction guaranty precise cutting results and high performance.

- Margin trimming**
- + Cutting of the forms**
- + Clean stacking of the individual sheets (drop stacker available as option)**

≡ 1 single process

<u>Important characteristics:</u>	<u>Technical details</u>	<u>Options:</u>
➤ Control panel	➤ Form length min. / max. : min 12/6" - max 999/6"	➤ Standard stacker
➤ Transport cover with automatic stop	➤ Form width min. / max.: 88 mm - max 500 mm	➤ Stacker for up to 16" form length
➤ Margin strip chopper	➤ Paper weight: min. / max.: min 40 g/m ² - max 200g/m ²	➤ Automatic drop stacker
➤ Automatic „paper-out“ control	➤ Weight of multiple part set: 350g/m ²	➤ Power supply
➤ Self diagnosis centre	➤ Margin width: 28 mm (Option 60 mm)	➤ Centre slitter
➤ Electronic fine adjustment		➤ Online connection
➤ High performance interface	➤ Speed max. with 12" C 6609 = variable - 8.000 sheets/h	➤ Kit for group separation
➤ Remote control	➤ Speed max. with 12" C 6610 = variable - 12.000 sheets/h	➤ Paper guidance for group separation
➤ Multi function counter	➤ Speed max. 12" C 6611 = variable - 15.000 sheets/h	➤ Pre-decollating station
➤ Length selection 1/6", 1/8", und 1/24"	➤ Speed max. with 12" C 6612 = variable - 18.000 sheets/h	➤ OMR reading (programmable)
➤ Support frame	➤ Speed max. with 12" C 6614 = variable - 18.000 sheets/h with cut-out technic
