

## U-Card Former Feeder (Specialty Packaging Feeders)

### Overview

The U-Card Former Feeder is specially designed to feed and form cards and dispense directly into production streams for placement of food type products. The Premiere Series incorporates many of the same useful features while adding a new Allen Bradley Panel View display with easy user friendly menu maneuverability. The U-Card Former Feeder is ideal for use in hand feed applications and easily integrates mechanically and electrically for increased system efficiency.

Feed and form pre-scored/perforated flat card type products into shrink wrappers, flow wrappers, and more. Operates on-demand one at a time up to 120\* pieces per minute.

### Configurable Features

- Patented powered rotating gate for product separation
- Tower lamp
- Speed matching capability
- Low stack detect
- Double sheet detect
- Adjustable discharge
- Large or small product side guides
- Various discharge configurations

### Standard Features

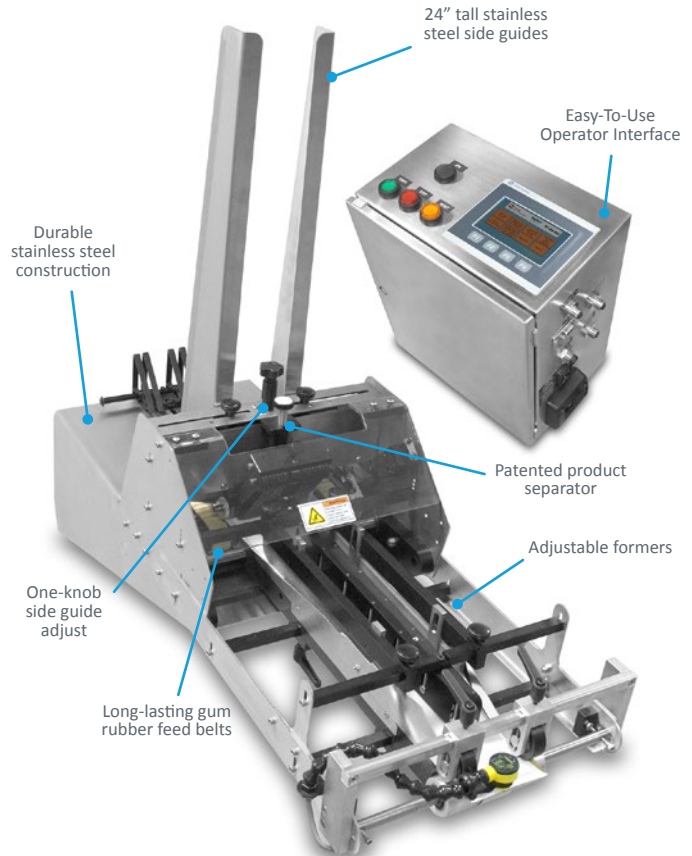

- Allen Bradley Panel
- View display with easy to use menus
- Long lasting natural rubber feed belts with vacuum assist
- One-knob side guide positioning
- Miss-detect
- Timeout stop
- Photo-sensor trigger input
- Isolated 24VDC inputs / outputs for system integration
- Trigger delay
- Self-triggering feature for stand-alone operation
- Stainless steel construction

### Applications (ask us about your application)

Shrink Wrappers      Food Packaging Lines      Flow Wrappers

### Products (ask us about your products)

Paperboard Cards      Microwaveable Cards      Perforated Cards  
Scored Cards

Specifications
