

**Get your continuous forms in to perfect shape in no time.**

# STOP WASTING TIME AND MONEY

Delivery notes • Invoices • Payment reminders • Production documents • Notifications...

Don't worry that ...  
... automatic forms processing is viable just for large printer outputs.

For lots of companies manual forms handling is a thing of the past because **HEFTER Systemform** has the solution to unproductive manual forms handling – the **burster V 9000-1-ref**:

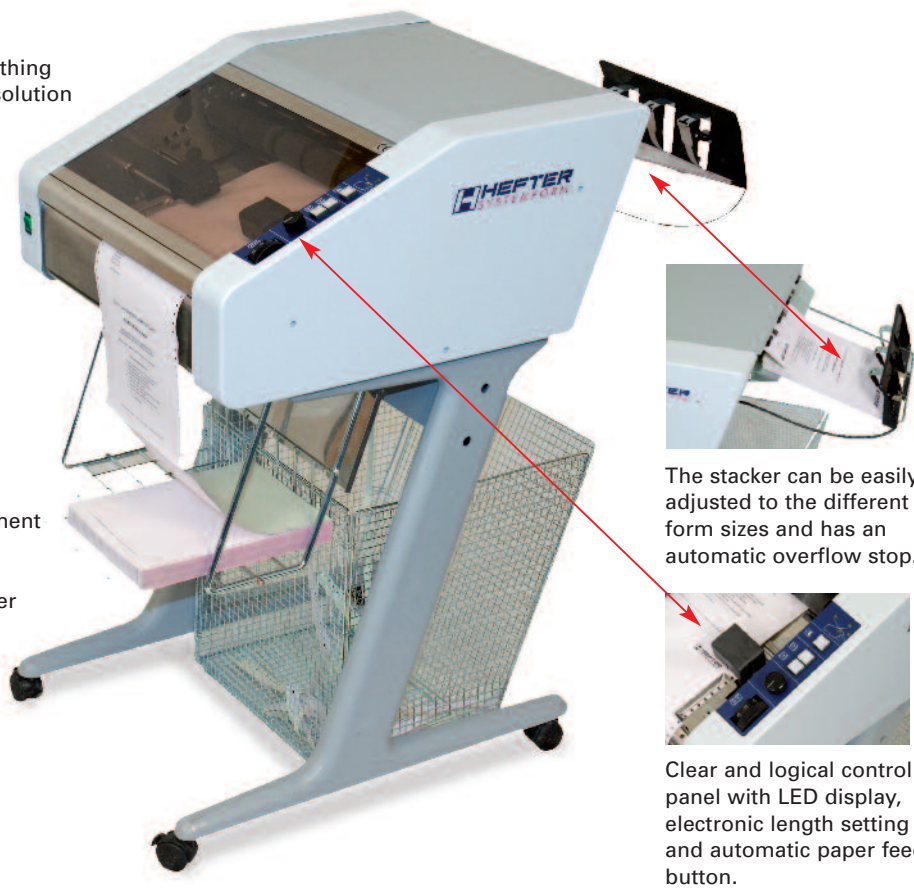

- Margin trimming**
- + **Bursting**
  - + **Stacking**

... in a single process!

In addition the appearance of your forms will be improved.

**Go and see yourself:**

- Clear and logical control panel with LED display
- Automatic paper feed
- Tractor infeed for accurate paper transport
- Individually selectable margin cutters; no adjustment of knives necessary when changing form sizes
- Electronic length setting (4"-12")
- Variable speed to adjust to different kinds of paper
- Quick-stop button
- Automatic „paper-out“, „stacker full“ as well as „jam“ control
- Automatic jam clearance
- Paper tray and waste basket
- Mounted on casters for easy relocation

The stacker can be easily adjusted to the different form sizes and has an automatic overflow stop.

Clear and logical control panel with LED display, electronic length setting and automatic paper feed button.
