

Vacuum Transport (Conveyors)

Overview

The Vacuum Transport is the ideal multi-purpose system to handle all that you throw at it. From scanning, to printing, to labeling, to addressing, to tipping/attaching, and more you can be assured that this conveyor will provide all the flexibility required of fulfillment systems today. The heavy-duty base will provide years of service at an affordable price.

Consistently feed and transport a wide variety of flat and multi-thickness products at speeds up to 330 feet per minute for barcode reading, printing, print verification, tipping, and more. The system can be used as an offline production system or simply remove the feeder and put it inline with other production flows.
